

**Math English Writing [GGC5041&MA320]**  
**Assignment 4, September 24**

For this week, the assignment is as follows:

1. Read Sections 2.5 to 2.7 of the textbook.
2. Write a summary of Sections 2.5 to 2.7, and attach it to your summary for Sections 2.1 to 2.4 that you have handed in last week. Create a new title for this combined file in MS word format and call it Summary of Chapter 2. The combined file can have a *maximum of 4 pages*. Submit the MS word file via *blackboard* on or before 10:00 PM on Monday, Oct. 7th. Please submit two copies of your summary, one with your name and student ID number written at the top of the summary and another without these information for confidentiality during the peer evaluation. For convenience of distributing your assignments for peer review, name the two copies as

Assignment 4 (your name),  
For-peer-review,

respectively. Note that your Assignment 3 which summarizes the first four sections of Chapter 2 will not be marked separately. Only Assignment 4 which summarizes the whole Chapter 2 will be marked.

3. Ask at least 2 questions about Chapter 2. The questions can be anything concerning Chapter 2, for example, about the difference between two short phrases in Section 2.3, or about a sentence structure in Section 2.4, or about the comparison of sentences in Section 2.7.

Write the questions down and discuss with your groupmates, bring them to class the week after the National Day for classroom discussion. *Do not submit these questions to the TA.* During classroom discussion after the National Day, we will go through the class list and ask you group-by-group to present your questions verbally. After you present your questions, we will discuss them together.

4. Revise your summary for the first chapter with the aid of a software such as MS Word or Grammarly.com. Turn in your revised summary as a MS word file via *blackboard*. Follow the same format as specified in #2..
